PETITION TO MAKE APPLICATION SPECIAL UNDER 37 C.F.R. §1.102

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicant's representative hereby states that the age of applicant (James Harrell) is over sixty-five (65) years old, that the invention will materially enhance the quality of the environment, and also that the invention will materially contribute to the development of conservation of energy resources, i.e., by generating power from a renewable, non-polluting and environmentally safe source: the Earth by an array of ground source heat pumps and wells.

The current energy crisis demonstrates the need for alternative fuel/power sources, such as that presently proposed in the instant invention. Pursuant to 37 C.F.R. §1.102, applicant respectfully requests to make special and advance out of turn the examination of the above-identified application.

Respectfully submitted,

Raymond Van Dyke
